KYOTO HARDWARE

For 20 years, Kyoto Hardware has been at the forefront of the door and window hardware industry, setting the standard for quality, innovation, and reliability. We are experts in the design, development, and manufacturing of premium hardware solutions, catering to a diverse range of window types, including inward-opening and top-hung windows.

Our unwavering commitment to excellence is reflected in every product we create, adhering to the highest industry standards and ensuring unmatched durability and functionality. At Kyoto Hardware, we understand that our products are more than just components—they are integral to the safety, aesthetics, and performance of your spaces.

We pride ourselves on offering cost-effective solutions that do not compromise on quality, meeting the unique needs of our global clientele. As we continue to innovate, our mission remains clear: to be the cornerstone of the door and window hardware industry, delivering products that inspire confidence and enhance the beauty of every home and building.

Evidence of Performance

Hardware for windows and door-height windows EN 13126-3 : 2011

Test Report

No. 18-001614-PR01

(PB+KB-G05-03-en-05)

Client Zhejiang Kyoto Hardware Technology Co.,Ltd
No. 167, Yinxing Road
325011 Wenzhou, Zhejiang province
P.R. China

Product Rotating handle with detent

Designation V2217 16 Z030

Performance-relevant product details
Material: **Stainless Steel**
Mounting distances: **43 mm**
Method of attaching: **screws**
The number of fasteners: **1 pc**
Fasteners: **M5 x 14 mm**
Handle width: **approx. 32 mm**
Handle length: **approx. 157 mm**
Handle housing (WxLxH): **32 mm x 157 mm x 57 mm**

Special features * In addition there has been a durability test performed and succeeded till 50.000 test cycles in accordance with EN: 13126-3:2011 clause 7.3 / 7.4 / 7.5

Result

Classification according to EN 13126-3 : 2011

Category of use	Durability	Mass	Fire resistance	Safety in use	Corrosion resistance	Security	Applicable part	Test sizes
1	5*/180	-/-	0	1	3	0/0	3/C1	-/-

Basis

EN 13126-1 : 2011
EN 13126-3 : 2011

Test standards:
EN 13126-3 : 2011
Equivalent national versions
(e. g. DIN EN)

Replaced Test Report No. 18-001614-PR01 (PB + KB-G05-03-en-04) dated 17.12.2018.

Representation

Instructions for use

This test report demonstrates compliance with the requirements for tilt & turn, tilt-first and turn-only hardware as per EN 13126-8 : 2017

This test report does not replace the EC Certificate of Conformity. Observe the provisions of EN 13126-8 : 2017 for marking and evaluation of conformity of construction products.

Validity

The data and detailed results given refer solely to the tested / described test specimen. Classification remains valid as long as the product and the above basis remain unchanged. The results can be applied under the manufacturer's own liability subject to observance of the relevant specifications set out by the applicable product standard. This test/evaluation does not allow any statement to be made on any further characteristics regarding performance and quality of the construction presented; in particular the effects of weathering and ageing were not taken into account.

Notes on publication

The ift-Guidance "Advertising with ift test documents" applies. The cover sheet can be used as an abstract.

The report contains a total of 13 pages.

1 Object

1.1 Description of test specimen (all dimensions in mm)

The description of the specimen to be tested serves to identify, in conformity with the standards, the product type, for which the values determined will apply. Alternatively to the specified tabulated data collection, the description may also be made by technical drawings, processing instructions, parts lists, etc. Please supplement additional product details. The details are the precondition for issuing the "ift-Nachweis". Only upon provision of all requested data subsequently requested Expert Statements may be issued. All details provided by the client will be checked for plausibility by ift, any deviations observed and/or additional findings will be documented.
